

# **Full SRS**

Write down an SRS document and present it as a group having the following parts on your software project work covering: Introduction, Problem Statement, Information Gathering and System Study, System Analysis, Feature list fixation with Functional and Non-functional requirements, Different Feasibility Analysis, System design (UML diagrams), UI design through Figma software, implementation plan etc.

You must add the following with your previous partial SRS document:

- Functional and Non-functional requirements
- Class Diagram
- State Diagram (at least 2)
- Sequence Diagram (at least 2)
- Deployment Diagram
- UI design of the main feature pages made with any software or hand drawn
- UI design principles followed to design the pages

You can add additional information if you want. Make sure to format the document carefully.
